Circular 2025/020: Identification documents for new accounts

Ref: 2025/020
Date: 2025-10-06
Subject: Identification documents for new accounts

To: All Branch Managers and Agent Network Managers
From: Head of Compliance

Compliance audits found that a driving permit was accepted as the only identification for new savings accounts in eleven branches. This is not allowed. A driving permit is accepted only for opening a Mobile Wallet. For savings and current accounts the customer must show a national identity card, a valid passport or a refugee identity card, as the KYC Procedure says.

Branches that opened accounts in this way must contact the customers and collect the correct identification by 30 November 2025.
