Circular 2026/009: Motor claims backlog in the third quarter

Ref: 2026/009
Date: 2026-09-14
Subject: Motor claims backlog in the third quarter

To: Claims Department and Branch Managers
From: Head of Claims

On 31 August 2026 there were 412 open motor claims older than 30 days. The main causes are missing police reports and late assessor reports. Six claims officers from Underwriting and Customer Service are placed in Claims until 30 November 2026 to clear the backlog.

Branch Managers must send the police report with the claim form and not after. Branches that send incomplete files will receive them back with a checklist. Customers with claims older than 45 days are called by a claims officer every week.
