Circular 2026/011: Use of generative AI tools

Ref: 2026/011
Date: 2026-05-25
Subject: Use of generative AI tools

To: All staff
From: Head of IT and Head of Legal and Compliance

The Acceptable Use of Generative AI Tools policy takes effect on 1 June 2026. Two staff members pasted customer complaint emails into a public chatbot in April. The emails held names and phone numbers. We treated both cases as security incidents and the customers were not harmed.

From 1 June do not paste customer data, claim files, loan files or salary data into any public AI tool. Staff who want to use AI for work can register for the internal AI sandbox with IT Security. Register through the IT service desk. Training sessions are held on the first Wednesday of each month.
