Agent Banking Guidelines

Appointing an agent

An agent must have traded for 12 months, hold a trading licence and keep a separate float account. The agent signs the agent agreement and attends one day of training.

Services

Agents open Mobile Wallets, take cash in and cash out, pay bills and receive loan repayments. Agents do not open savings accounts and do not approve loans.

Commission

The agent earns 0.5 percent of the value of each cash-out and UGX 300 for each wallet opened with verified identification. Commission is paid on the 5th of the next month.

Float

The daily float cap is set by circular. Agents reconcile their float register each day by 6:00 pm.

Suspension

An agent who opens wallets without checking identification is suspended pending review.
