Branch Opening and Closing Procedure

Opening

Two staff arrive together. The alarm is switched off by the Branch Manager or the Operations Officer. Systems are checked before the doors open. Doors open to customers at the time in the current opening hours circular.

Closing

The last customer is served before the doors close. Tellers balance and the vault is locked under dual control. The alarm is set and the closing log is sent to Branch Operations by 6:30 pm.

Emergencies

In a robbery staff follow the instructions of the robbers, press the silent alarm only if safe, and do not give chase.
