Business Continuity Plan: Summary

Summary of the Kitara Group Business Continuity Plan for all staff.

Recovery targets

- Core banking system: restored within four hours. Data loss no more than 15 minutes.
- Mobile money switch: restored within two hours.
- Claims system: restored within 24 hours.
- Email and the shared drive: restored within eight hours.

Recovery site

The disaster recovery site is at the Mukono data centre. Data is copied there every 15 minutes. A full recovery test is held every year in March.

If your branch cannot open

The Branch Manager phones the Branch Operations duty officer within 30 minutes. Customers are directed to the nearest open branch. Tellers carry cash to the alternative branch only with a security escort.

Staff contact tree

Each head of department keeps a printed contact tree. In a major incident the Chief Operating Officer leads the Crisis Team, which meets at 8:00 am and 2:00 pm each day until normal service returns.
