Complaints Handling Procedure

A complaint is any expression of dissatisfaction about a Kitara product, service or member of staff. A request for information is an enquiry and is not logged as a complaint.

1. Receiving a complaint

A complaint may be made at any branch, by phone, by email or through the mobile app. The person who receives it records it in the complaints register on the same day. The customer receives a reference number.

2. Acknowledgement

Every complaint is acknowledged within 24 hours. The acknowledgement gives the reference number and the name of the officer handling the complaint.

3. Resolution

A simple complaint is resolved within 14 days. A complex complaint, such as a disputed claim decision or a disputed loan balance, is resolved within 30 days. If more time is needed the customer is told why and given a new date.

4. Escalation

A customer who is not satisfied can ask the Head of Customer Service to review the decision. If the complaint is not resolved after 30 days the customer may take it to the sector regulator. Staff must give the customer the regulator's contact details when asked.

5. Reporting

Customer Service sends the monthly complaints report to the Risk Committee. The report lists complaints by product, by branch and by days to resolve.
