Motor Underwriting Guidelines

Vehicle age

A vehicle older than 15 years needs an inspection report before comprehensive cover. Vehicles older than 25 years are offered third party only.

Driver loadings

A driver under 23 years carries a premium loading of 25 percent. A driver with two or more claims in three years carries a loading of 15 percent.

Commercial use

Taxi, delivery and hire vehicles are rated at commercial rates. A private policy used for hire is not covered.

Authority

An underwriter may accept risks up to a sum insured of UGX 150,000,000. Higher risks go to the Head of Underwriting.

Inspection

A vehicle that needs an inspection is inspected at an approved garage. The report must be dated within 14 days before the start of cover. The underwriter records the chassis number, the mileage and any existing damage, and attaches photographs.

Referral

The following risks are referred to the Head of Underwriting whatever the sum insured: vehicles registered abroad, vehicles with a modified engine, a customer with a cancelled policy in the last three years, and any risk with a total loss claim in the last two years.

Renewals

A renewal is offered at least 21 days before expiry. The underwriter reviews the claims record and updates the no-claim discount. A renewal with a premium increase above 15 percent is explained to the customer in writing.

Cancellation

A customer may cancel at any time. Premium for the unused period is returned, less a charge of 10 percent of the annual premium and any claim paid. Kitara may cancel for non-payment after 14 days of written notice.
