Your study calendar

Starts Thursday 3 December 2026. Ends with the parent showcase on Saturday 30 January 2027.

EVERY WEEK
Saturday in person, two classes online
In person 2:00 to 5:00 pm. Online 2:00 to 3:30 pm.

SHORT LABS
Weeks 1 to 4, online
2:00 to 4:00 pm. Dates are in the table.

IN PERSON AT
The National ICT Innovation Hub, Nakawa
Bring your laptop and charger.

How it works

There are no tests and no marks. In every class you build something, save it, and show it. That is the whole course.

In person (Saturday): three hours of hands-on building with me and a break in the middle. The first class is also in person, so we can set up your laptop together.

Online (the other days): about 90 minutes live on video with screen sharing, where we learn the idea and try it. After class you finish the build in your own time, about an hour, and send me a photo or your notebook before the next class. A class link is sent before each class. You need your laptop, internet and headphones.

Your project: think from day one about a topic you love, such as football, music or boda-boda fares. In week 4 you choose your question and in weeks 7 and 8 you build it and show your family.

Public holidays: no class

Friday 25 December, Saturday 26 December and Friday 1 January. No session is lost. A class that would fall on a holiday moves to the next class day. The online labs that fall on 25 December and 1 January move to Monday 28 December and Monday 4 January. Your last class is Saturday 30 January.

DATE	TIME	WHAT WE STUDY
Week 1 Python and a first prediction	3 Dec to 11 Dec	Badge: First Prediction
Thu 3 Dec	**In person** 2:00 to 5:00 pm	**ML01 Your first instruction and your first prediction** **You build:** a computer that guesses the rent of a home
Sat 5 Dec	**In person** 2:00 to 5:00 pm	**ML02 Values, names and types** **You build:** a price calculator that knows numbers from text
Tue 8 Dec	Online 2:00 to 3:30 pm	**ML03 Arithmetic, converting text and reading errors** **You build:** a calculator that tells you where you slipped
Fri 11 Dec	Online lab 2:00 to 4:00 pm	**Lab F01 Numbers, names and predicting Python output** **You build:** a warm-up: guess what Python prints, then check
Week 2 Python you need	10 Dec to 18 Dec	Badge: Python You Need
Thu 10 Dec	Online 2:00 to 3:30 pm	**ML04 Decisions and a hand-written flower rule** **You build:** a flower-sorting rule that you write by hand
Sat 12 Dec	**In person** 2:00 to 5:00 pm	**ML05 Lists, dictionaries and loops** **You build:** a loop that reads a whole price list
Tue 15 Dec	Online 2:00 to 3:30 pm	**ML06 Functions and checks that fail loudly** **You build:** a function that checks its own answers
Fri 18 Dec	Online lab 2:00 to 4:00 pm	**Lab F02 Lists, vectors and NumPy arrays** **You build:** a first tour of NumPy arrays
Week 3 Tables and statistics	17 Dec to 28 Dec	Badge: Data Detective
Thu 17 Dec	Online 2:00 to 3:30 pm	**ML07 Tables and reading a CSV file** **You build:** your first table: open a shop sales file

DATE	TIME	WHAT WE STUDY
Sat 19 Dec	**In person** 2:00 to 5:00 pm	**ML08 Select, filter and calculate new columns** **You build:** a revenue column that you calculate yourself
Tue 22 Dec	Online 2:00 to 3:30 pm	**ML09 Mean, median, range and proportions** **You build:** a summary card: typical, spread and chance
Mon 28 Dec	Online lab 2:00 to 4:00 pm	**Lab F03 Variation, proportions and probability** **You build:** quick maths for data: spread and chance
Week 4 Clean, chart, question	24 Dec to 4 Jan	Badge: Clean and Chart
Thu 24 Dec	Online 2:00 to 3:30 pm	**ML10 Cleaning without hiding evidence** **You build:** a clean dataset with a log of every change
Tue 29 Dec	Online 2:00 to 3:30 pm	**ML11 Charts that show what the numbers say** **You build:** three charts that tell the story of the sales
Thu 31 Dec	Online 2:00 to 3:30 pm	**ML12 Show your first chart and choose your project question** **You build:** a mini report and your own project question
Mon 4 Jan	Online lab 2:00 to 4:00 pm	**Lab F04 Matrices, weighted sums and slope** **You build:** the weighted sum behind a prediction
Week 5 Baselines and a line	2 Jan to 7 Jan	Badge: Baseline Breaker
Sat 2 Jan	**In person** 2:00 to 5:00 pm	**ML13 Features, targets and an honest baseline** **You build:** a plain-guess baseline your model must beat
Tue 5 Jan	Online 2:00 to 3:30 pm	**ML14 Predicting a number with a line** **You build:** a line that predicts a rent
Thu 7 Jan	Online 2:00 to 3:30 pm	**ML15 A complete regression experiment** **You build:** a full prediction experiment, start to finish
Week 6 Trees and fair comparisons	9 Jan to 14 Jan	Badge: Fair Judge
Sat 9 Jan	**In person** 2:00 to 5:00 pm	**ML16 Predicting a category with a decision tree** **You build:** a decision tree that sorts flowers
Tue 12 Jan	Online 2:00 to 3:30 pm	**ML17 Mistakes, overfitting and fair comparisons** **You build:** a fair comparison that spots overfitting
Thu 14 Jan	Online 2:00 to 3:30 pm	**ML18 A fair comparison: does your model beat the plain guess?** **You build:** your model against data it has never seen
Week 7 Your project	16 Jan to 21 Jan	Badge: Project Builder
Sat 16 Jan	**In person** 2:00 to 5:00 pm	**ML19 Project data and a safe plan** **You build:** your project plan and your data
Tue 19 Jan	Online 2:00 to 3:30 pm	**ML20 Build the project baseline** **You build:** your project baseline
Thu 21 Jan	Online 2:00 to 3:30 pm	**ML21 Compare, explain and critique** **You build:** your best model, explained in plain words
Week 8 Hand over	23 Jan to 30 Jan	Badge: Showcase
Sat 23 Jan	**In person** 2:00 to 5:00 pm	**ML22 The final run: your project, ready to share** **You build:** your finished project, ready to share
Tue 26 Jan	Online 2:00 to 3:30 pm	**ML23 Explain the project to a parent** **You build:** a three-minute talk about what you built
Thu 28 Jan	Online 2:00 to 3:30 pm	Catch-up and showcase rehearsal (optional)
Sat 30 Jan	**In person** 2:00 to 5:00 pm	**ML24 Parent showcase and next steps** **You build:** showcase day: you show your family what you made

Optional extra. ML25, a first neural network, is an optional session after the course. No date is set yet.

Dates assume classes start as planned. If a class is missed, we will agree a catch-up time. Questions: +256 750 990 718 | jothammartin.wambi@gmail.com
