KLAi

KLAi Professional Learning

AI and data courses for working professionals

Live, hands-on training to get you ready for the AI era, move into a new field or add a skill your employer will notice. Every tool is free.

Be AI-ready • **Change career** • **Add a skill**

AI & Data Science

Go from Excel to a tested model and a live app. No coding experience needed.

48 hours
24 sessions

Machine Learning

Build, test and judge predictive models on real business data.

36 hours
18 sessions

Python & SQL for Data Analysis

Query databases, clean data and report findings with confidence.

36 hours
18 sessions

AI & Automation

Use AI at work with evidence and controls, then plan a first pilot.

24 hours
12 sessions

Enterprise Data Readiness for AI

Align your data and infrastructure for AI, now or later. For organisations, leaders and data teams.

24 hours
12 sessions

Two-hour sessions, spread over several weeks and not back to back.

Enrol for the next cohort
